## EXPERIENCE

### MIKE FLYNN CODES

Freelance Developer

Remote - Denver, CO

Mar. 2021 to Current

Helping people and small businesses achieve their ideal website to help promote their brand

### UFOMG

React, Redux, Google Maps API, Cloudinary, Cypress, Heroku, Git

UFO reporting and research website

- Addressed need for a site that had data visualization for deeper research and a way to add their own reports
- Collaborated with a full back-end team to build the app from scratch with agile software development
- Built custom Google Map icons, buttons, and legend that allow a user to filter between sighting density and sighting type
